

Blockquotes

To create a blockquote, add a > in front of a paragraph.

```
> Dorothy followed her through many of the beautiful rooms in her castle
```

Blockquotes with Multiple Paragraphs

Blockquotes can contain multiple paragraphs. Add a > on the blank lines between the paragraphs.

```
> Dorothy followed her through many of the beautiful rooms in her castle. The Witch
> bade her clean the pots and kettles and sweep the floor and keep the fire fed with
> wood
```

Nested Blockquotes

Blockquotes can be nested. Add a >> in front of the paragraph you want to nest.

```
> Dorothy followed her through many of the beautiful rooms in her castle. The 🧙 bade
> her clean the pots and kettles and sweep the floor and keep the fire fed with wood
```

Blockquotes with Other Elements

Blockquotes can contain other Markdown formatted elements. Not all elements can be used -you'll need to experiment to see which ones work.

Blockquotes Best Practices

For compatibility, put blank lines before and after blockquotes.
